WESTCHESTER HEALTH ASSOCIATES

OPENS JULY 1

*Katonah Medical Group docs plus independent practitioners
form large, **new** multi-specialty group.*

Patients still able to see physicians in current, private offices.

Katonah, N.Y. (June 12) – Fifty six of Northern Westchester’s premier physicians, from over twenty-two separate practices, are joining together to create a new multi-specialty medical group, called Westchester Health Associates, with a central office in Katonah and sites throughout the Northern Westchester area. The group consists of many physicians formerly associated with the Katonah Medical Group and of physicians who have been practicing independently in the area for many years. Westchester Health officially opens its doors on July 1.

By combining resources, the physicians will be able to improve patient services, expedite physician to physician communication and simplify access to the area’s top specialists. “With state-of-the-art electronic medical records, the patient will be the center of the health care universe. Even when more than one doctor is treating a patient, there will be one coherent record for physicians to share,” stated Peter Mercurio, M.D., President and CEO of Westchester Health.

“Another of Westchester Health’s unique benefits is that patients can continue to see the physicians they’ve always known and loved in their current, small office settings, keeping the care personal and compassionate and, yet, have instant access to all that a large, multi-specialty group has to offer,” Dr. Mercurio added.

Westchester Health’s central office will be in the former Coldwell Banker building at the intersection of routes 22 and 35 in Katonah, at 60 Goldens Bridge Road in Katonah. The Katonah office will offer internal medicine, obstetrics and gynecology,

pediatrics, orthopedics, gastroenterology (with an endoscopy suite), radiology and cardiology. Westchester Health physicians will also continue to see patients in their current locations throughout Westchester. You can reach Westchester Health at 232-1919.

Westchester Health Associates

Westchester Health Associates is a 56 physician, multi-specialty medical group set to open this July with a central office in Katonah and other sites conveniently located throughout Northern Westchester. Their twofold mission is to offer patients access to the area's top physicians and specialists while providing personal care in a small, comfortable and compassionate setting.
